

streamline your design process

Define your specs as you build
your schematic.
Submit to QuickDesign™.
Get your custom integrated
package design.
All in a matter of minutes.
In one handy, free online
software tool.
Seriously.

1500 West University Parkway
Sarasota, Florida USA 34243
sunhydraulics.com/QD

the shortest distance from
concept to solution

HOW DO YOU DO IT?

1

REGISTER
at sunhydraulics.com/QD

2

DRAW YOUR SCHEMATIC

- Create your schematic using the **SmartConnect** schematic tool
- Drag-and-drop Sun cartridges
- Add Sun or industry-common cavities
- Drop in ports, interface patterns, and new Faster quick release couplings
- Draw connections

3

ADD FINISHING TOUCHES

- Set your manifold face preferences for components and features
- Submit your project

DESIGN SMARTER

FREE - Web-based program does it all for free

EASY - Drag-and-drop interface makes circuit layout quick and easy

FAST - Complete design package ready in minutes

ROBUST - Design circuits with up to 15 cartridges

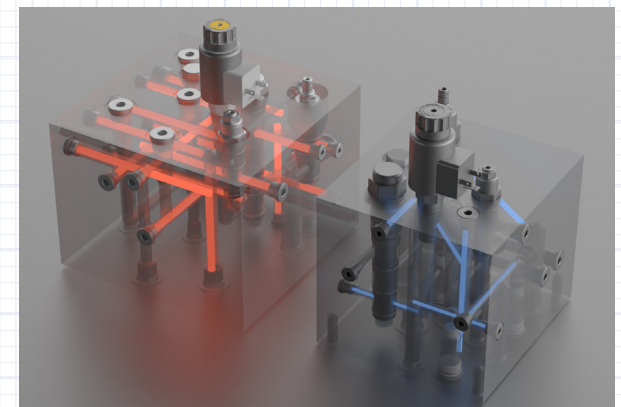

FLEXIBLE - Start with a bill of material, with a custom schematic, or with one of our many standard product circuits

WHAT DO YOU GET?

1

part number for the entire package

- Complete assembly and manufacturing drawings
- Hydraulic schematic
- Cartridge data sheets
- Manufacturing drill lists
- 2D CAD files and 3D Solid Models
